Short List of TPI Company instruments collection

<p><u>Flue Gas Combustion</u> <u>Analysers</u> (2xModels) Determine combustion efficiency, CO₂, and CO air free. Some models include built-in differential manometer, combustible gas detection, PC communication, data logging, and can measure NO / NO_x.</p>	
<p><u>Clamp-On Current Meters</u> (6xModels) Hand-held, auto ranging clamp-on DMM. Extra large numerals, capacitance, frequency and data hold are just a few of the features of the 265. An affordable choice, the 265 offers measurements in all basic electrical functions.</p>	
<p><u>Manometers (Pressure)</u> (15xModels) Dual and Single Input Manometer with ±100 psi range and 0.01 psi resolution</p>	
<p><u>Indoor Air Quality</u> (6x Models) Wide range of IAQ instruments provides the capability to measure air velocity, humidity, temperature, carbon monoxide (CO), carbon dioxide (CO₂)...</p>	
<p><u>Vibration Monitoring</u> (4xModels) Portable, Hand held, easy to use, low cost vibration meters that records, analyzes and displays vibration signals at the push of a button. Few of models include Stroboscope option for Motor speed measurement</p>	
<p><u>Digital Multimeters-DMM and Oscilloscopes (Hand Held)</u> (14 x Models)</p>	
<p><u>Gas Detection Analyzers</u> -Combustion Analyzers (2) - Carbon Monoxide Products (5) - Combustible Gas detectors (11) - Refrigeration Leak detectors (2)</p>	
<p><u>Non-Contact (IR) Thermometers</u> (11x Models)</p>
